Growth of Services Across Time

Cumulative Legal Services by Month

Complaints and Audits

- To date, entities have reported eleven complaints to the Office, approximately 1 complaint per 2,123 services delivered. The first complaint was reported in the April 2021 report and was linked to the harm of an inappropriate/inaccurate legal result. The second complaint was reported in the May 2021 report but was not linked to any of the three harms. The third, fourth, and fifth complaints were linked to exercising legal rights and were reported during June, September, October 2021 respectively. Two complaints were reported during December 2021 but neither was harm-related. During April 2022, two complaints were received by the Office; one complaint was harm-related and classified as a harm to a legal result, and the other complaint was found to not be associated with a rights-, results-, or payment-harm. Two complaints were made during June 2022, with one not being harm-related and the other related to a payment harm. The ratio of harm-related complaints to services was approximately 1 complaint per ~3892 services. The entity response to harm-related complaints has been adequate and acceptable as related to harm mitigation and prevention.

Consumer Complaint Assessment: All Reporting Entities to Date

Complaint Harm Category	# Consumer Harm-Related Complaints	% Services with a Harm-Related Consumer Complaint
Consumer achieves an inaccurate or inappropriate legal result.	2	<0.01%
Consumer fails to exercise legal rights through ignorance or bad advice.	3	~0.01%
Consumer purchases an unnecessary or inappropriate legal service.	1	<0.01%

- o Audit materials have been collected from three moderate risk entities, with three reviewed by the Office. Independent lawyer audit panelists reviewed randomly selected representative legal services of two entities. Two entities’ audit reports were completed and distributed to the Executive Committee of the Office of Legal Services Innovation and the Utah Supreme Court for review. Based on audit findings, there was no evidence of material or substantial harm to consumers, and services were found to be at least adequate by the Office, its Executive Committee, and independent lawyer auditors. At this time, a fourth entity’s services are being reviewed by an independent lawyer audit panel.

JUNE 2022 ACTIVITY RISK REPORT - HARM ASSESSMENT

Depending on an entity’s assessed risk level (the risk level assigned at authorization), OLSI collects a range of measures from the entity designed to assess the occurrence of three harms to consumers (this can also be understood as “actualized risk”):

- Consumer achieves inaccurate or inappropriate legal results.
- Consumer fails to exercise legal rights through ignorance or bad advice.
- Consumer purchases an unnecessary or inappropriate legal service.

As service activity increases among sandbox participants, the Office will receive more kinds of information. For entities assigned higher risk levels, this will include information about legal outcomes, financial outcomes, and expert audits of a sample of work product. As these data accumulate, harm assessments will be based on a review of all applicable measures.

In these early stages of service provision and reporting, the assessment of consumer harm is based on the prevalence of consumer complaints indicating the occurrence of one or more of the three harms. Social scientific studies grounded in expert peer review of lawyers’ work product typically find that lawyers commit errors in one fifth to one quarter of the cases reviewed. Taking this finding as a baseline, the harm assessment classifies receipt of harm-related complaints from more than 25% of customers as a significant warning of harm (red), which would indicate an immediate need for the entity to work with OLSI to develop and implement quality improvement plans to prevent harms and might also lead the Office to recommend that the Court suspend the entity’s operations in the sandbox. Receipt of harm-related complaints from 11-25% of consumers would trigger a watch (yellow) to better understand and prevent potential harms and would likely include the requirement of additional information from entities so classified. Receipt of harm-related complaints from 10% or fewer of an entity’s consumers is considered reasonable risk (green) and does not trigger the need for any additional risk assessment.
